TSV · BANGKOK · 2026

The officer's field guide to the TSV app.

A 10-minute read to get you oriented before wheels-up. Non-admin edition — what every officer needs to know to stay accounted for, move safely, and contribute to the daily rhythm of the trip.

- 26 — 30 April · 5 days · 85 pax

§ 1

Install it like a native app

Open the link on your phone and add it to your home screen. Works on iPhone and Android. Once installed it runs full-screen, caches everything for patchy Wi-Fi, and remembers your session.

IPHONE · SAFARI

1. Open `https://57wbs1.github.io/TSV/` in **Safari**. Chrome on iOS will not let you install it — only Safari can.
2. Tap the **Share** icon ▯ at the bottom.
3. Scroll and tap **Add to Home Screen**, then **Add**.
4. Open **TSV BKK** from your home screen.

ANDROID · CHROME

1. Open `https://57wbs1.github.io/TSV/` in **Chrome** (or any Chromium browser — Edge, Samsung Internet, etc.).
2. Chrome usually shows a banner at the bottom: **"Add TSV BKK to Home screen"**. Tap it. If the banner doesn't appear, go to the next step.
3. Tap the ⋮ menu (top right), then **Install app** (or **Add to Home screen** on older Chrome). Confirm with **Install**.
4. Open **TSV BKK** from your app drawer or home screen.

FIRST RUN · BOTH PLATFORMS

Sign in with the PIN your admin gave you. On first login you'll be prompted to set your own — pick something memorable, because the admin can reset it but won't see what you choose.

WHY BOTHER INSTALLING

The installed PWA gets its own icon, runs full-screen without the browser URL bar eating space, caches everything for patchy airport and hotel Wi-Fi, and survives restarts without asking you to sign in again.

§ 2

Your daily rhythm

Five things to touch each day. Most take under 30 seconds.

0800H **Mark parade state**
If you're anything other than Present (fever, out for the day, etc.), open Tracker → Parade and update your status.

0830H **Parade state goes to command**

Your syndicate IC and the leadership chat see the parade-state roll. Your job is to have yourself correctly marked by 0800H — after that, the message goes out.

During

Leave / return flows

Any time you leave the hotel, hit Leaving → pick buddies → state a location. Hit Return to Hotel when you're back.

0200H

Curfew

Be marked back in by 0200H BKK. Tap **Return to Hotel** on your way into the lobby so your status flips before the midnight SITREP fires.

0600H

Weather drops

Daily weather + programme preview lands in Telegram. Read it before breakfast.

HARD CUT-OFF

Self-update parade state by **0800H** and be accounted for back in hotel by **0200H**. Missing either creates real admin workload for the Duty Officer.

§ 3

Tabs at a glance

Tap any tile for the deeper guide. Syndicate IC duties marked with a blue badge.

§ 4

Parade state — update yourself by 0800H

Everyone defaults to **Present**. If that's not true for the day — sick, hospitalised, absent from trip, whatever — you must update it before the 0830H roll to command.

How to update

1. Open **Tracker** tab → **Parade** sub-tab.
2. Find your row (your syndicate is shown by default).
3. Tap ✏️ **Edit**.
4. Type your status — examples: `Sick in Hotel 26 Apr`, `Hospitalised`, `Absent from Trip UFN`.
5. The screen saves immediately. Your syndicate IC sees it live.

Send an ad-hoc parade state ›

§ 5

Leaving the hotel — buddy system

Every movement out of the hotel must be logged. This is how Command knows who's together, where, and how to reach you if things go sideways.

1. From **Home**, tap 🚶 **Leaving Hotel**.
2. Pick your **syndicate**, then tap the officers you're going out with (buddy-system).
3. Type a **location** at the top — e.g. `Asok market`, `Terminal 21 — dinner`.
4. Optionally tap **Share GPS** if you want your location visible on the Map tab to admins (useful if there's a risk of getting separated).
5. Hit confirm. You're logged as OUT. Your buddies are flipped to OUT automatically with your location attached.

BUDDY TIPS

Only tap buddies who are actually walking out the door with you. If someone in your group heads back early, they should hit **Return to Hotel** themselves — don't do it on their behalf.

§ 6

Returning to hotel — by 0200H

When you walk through the hotel lobby, tap 🏨 **Return to Hotel** on the Home tab. That flips your status back to IN and stops GPS sharing.

IF YOU DON'T

The 0200H curfew SITREP will list you as OUT. Expect a phone call from the Duty Officer.

§ 7

Calendar & transport

Open the **Calendar** tab for the daily programme — visits, timings, attire, locations. Tap any event to expand details.

Transport sub-tab

Shows your bus or flight allocation. Times, gates, drivers, remarks.

Boarding — Syndicate IC duty SYN IC ›

§ 8

Ad-hoc SITREP

Scheduled SITREPs fire at 2300H and 0200H. If movement changes during the day — buses divert, half the syn splits off — fire an ad-hoc one.

PRIMARY: SYN IC

SYN ICs get a 📩 **Send SITREP** button on the **Home** tab. One tap, pick syndicates to include, optional remarks, done.

FALLBACK: ANYONE

If your SYN IC is unreachable, everyone can send an ad-hoc SITREP from **Tracker** → list view → 📩 **Send SITREP**. Same outcome.

§ 9

Incident reports — SOP tab

Anything that's not routine — medical, security, missing person, diversion — gets logged as an IR. **SYN IC only** creates them, but the message trail is public to Command.

Create a new IR SYN IC

1. Open **SOP** tab → **+ New Incident Report**.
2. Fill **Nature** (med / security / other), **Description**, **When/Where**, **Course & Syn involved**, **NOK informed (Y/N/N/A)**.
3. Tick **Send to Telegram**.
4. Submit. A 🚨 **IR NEW** message lands in Command chat with an ID like `IR03`.

Post an update SYN IC ›

Close the incident SYN IC ›

§ 10

Map & Rooms Tracker

Map

Shows SCOPE visit pins, bus locations, and live GPS for anyone who opted to share. Tap any pin for details. Useful before you step out — know where your syn already is.

Rooms Tracker

Update your hotel room number once. Your SYN IC needs it to physically find you in an emergency.

1. Open **Tracker** → **Rooms**.
2. Tap your name, enter your room number.
3. Save. Done for the trip.

§ 11

SOP — contingencies

The **SOP** tab holds every contingency the TSV committee pre-wrote: medical escalation, lost passport, bus breakdown, demonstration avoidance, hotel lockout. Read through it once on the flight in. Know what's there so you can find it under pressure.

§ 12

Settings

Personal controls, all in one tab.

🔐

Change PIN

ROTATE THE DEFAULT PIN YOU WERE ISSUED.

🐞

Report an issue

SOMETHING BROKEN OR WRONG? SEND A NOTE STRAIGHT TO THE ADMIN.

§ 13

If you remember three things

1. **Mark parade state by 0800H** if you're not Present.
2. **Leaving / returning hotel** — tap the button, name your buddies, state the location.
3. **SYN ICs** — boarding SITREPs on the Transport tab, incident reports on the SOP tab. Everyone else — SITREPs from Tracker if your IC is unreachable.

Questions → Caspar. Bugs → Settings → Report an Issue. Emergencies → TSV C2 group on Telegram.
